

October 10, 2022 Member Present: Adelle Woodard, Lynn Landers, Emily Morrison

1. **Great Start Readiness Program**

Lynn suggesting starting research on this with CAA, and reach out to Anita Young who previously worked for CAA and has some knowledge regarding pros and cons of GSRP

2. **Daycare (2024-25)**

This would be an option to retain several of our current employees in a different capacity. As ESSR funds disappear a fairly large portion of our staff will be reduced due to the loss of this funding. Also, a reasonable way to create a revenue stream for years to come.

3. **Training our own people as Bus Drivers**

This is another avenue to repurpose our existing staff and its much needed. One aide is currently beginning the process. The district will assist financially.

4. **Volunteers**

A new set of guidelines will be used to vet volunteers. These will be based on the disqualifying criteria for Foster Care providers for the State of Michigan.

5. **EMC Grad Requirements**

We received guidance from our pupil accounting auditor to include specific language regarding the Early Middle College Program's graduation and funding requirements to be included in the Student Handbook. Language to include course load requirements.
